

SOCIAL IMPACT FUND

VIRTUAL TOWN HALL

Wednesday, March 9 · 10:00 AM CT

The American Heart Association's **Social Impact Fund** supports community-based organizations that are breaking down social and economic barriers to health equity.

\$500K is available for nonprofits that are sustainably addressing food insecurity, education, housing, health access and employment for residents in the Twin Cities area.

The Fund will improve the health and wellbeing in our communities of greatest need in three ways:

Overcoming the systemic challenges within the health sector

Expanding the pool of change makers

Empowering local communities to address solutions to social determinants of health

LET'S TALK ABOUT THE TWIN CITIES AREA

Join us to learn more about the Social Impact Fund and opportunities for funding.

We also want to hear from you about the most critical needs in your community and how this funding can help to drive sustainable change.
