# Free Cancer Screening

Visit [www.mnsage.com](http://www.mnsage.com) | Call 1-888-643-2584

## Screening saves lives.

- You may be at higher risk for breast or cervical cancer.
- American Indian, Black, and Asian Minnesotans are impacted by these cancers more than other groups, in part because of barriers to resources that support health.

## Get screened!

- Screening can help prevent cancer from developing or find it early when it's easier to treat.

## Services covered by Sage:

- A screening office visit every year where a clinical breast exam and pelvic exam are provided.
- A mammogram every year for people 40 and older.
- A Pap test every 3 years for people aged 21-29.
- A Pap test every 3 years OR a Pap and HPV test every 5 years for people aged 30-64.
- Follow-up office visits and/or diagnostic tests whenever there is an abnormal breast or cervical screening result.

Sage does not cover treatment but uninsured patients may be eligible for treatment services through Medical Assistance for Breast and Cervical Cancer (MA-BC).

## Take part in the free screening program if:

- You are within the Sage age ranges.
- You do not have health insurance.
- You have health insurance but have a co-pay or unmet deductible.
- Your health insurance does not cover Pap tests or mammograms.
- Your household income is within guidelines.

### 2023 Income Guidelines

Household Number	Monthly Income	Yearly Income
1	\$3,038	\$36,450
2	\$4,108	\$49,300
3	\$5,179	\$62,150
4	\$6,250	\$75,000
5	\$7,321	\$87,850
6	\$8,392	\$100,700
Add for each additional	\$1,071	\$12,850

*Note: If self-employed or farmers, use household net income (after business expenses), or contact Sage for help. Guidelines change yearly.*
