Wednesday, April 3, 2024

Option 1: 5:30-7:30pm CDT
Option 2: 6:30-8:30pm CDT

Monday, April 15, 2024

Option 1: 5:30-7:30pm CDT
Option 2: 6:30-8:30pm CDT

*Capacity is 50 per date

This interactive simulation-based workshop is designed to build capacity in the area of working with interpreters for interprofessional team members.

Workshop objectives include:

- Supporting newcomers and improving their care by collaborating with trained interpreters
- Working as part of an interprofessional team
- Applying just-in-time training in an online, simulated clinical environment with standardized patients and trained interpreters
- Discussing practical applications in healthcare settings

AGENDA

Pre-Briefing & Just-in-Time
Training
Simulated Encounter
