

COVID-19 testing

To keep you and your family safe and healthy, HealthPartners and your employer are partnering to provide you with the opportunity to be tested for COVID-19 – even if you don't have symptoms. Schedule a drive-up test at one of our many sites in Minnesota currently offering tests.

Schedule an appointment

1. Visit healthpartners.com/backtobusinessscheduling
2. Select *Start my screening*
3. Sign into your HealthPartners account or find an appointment first
4. Answer questions about your symptoms
5. Enter your 5 digit code
6. Confirm details about your appointment
7. An email confirmation will be sent to you

What to expect with your COVID-19 test

Prepare for your test

Before you arrive, we ask that you put on a face covering (such as a protective mask or face covering, like a scarf or bandana) as a precaution. Members of your care team will also wear masks and other personal protective equipment (PPE).

Arrive at your test location

If you're testing at a drive-up site, follow signs or directions from clinic staff. In most cases, you'll be tested for COVID-19 without leaving your car. This helps speed up the testing process and also helps everyone practice better social distancing.

Get your test results

After your test, you can expect results in two to three days through your HealthPartners online account. Log into your account at healthpartners.com.

If you do not have an online HealthPartners account, visit healthpartners.com/account/create.

If you test positive

You'll also get a call from a HealthPartners or Park Nicollet nurse to answer any questions you may have and support you through any care needs you may have.
