

Artemis's Milk Depot

IMPACT REPORT

7/2023-6/2024

Milk Depots help parents close the gap

World Breastfeeding Week 2024 champions equity in our society, underscoring the need for universal access to breastfeeding support, promotion, and protection. Ensuring no one is left behind, particularly vulnerable mothers who require additional support, is crucial in addressing breastfeeding disparities.

A message from a milk donor

"With Addi in the hospital, I was pumping way more than she could ever take and was able to donate my extra milk. If you are able, I encourage you to reach out to the Milk Bank and see if you are able to donate. There are so many babies who need donor milk and it's a very humbling experience to be able to give back to the tiniest miracles who need it most."
