

## Broadband Investment Program Recipients Round 1

<b>Recipient</b>	<b>Project Location</b>	<b>Grant</b>
AirLink Rural Broadband LLC	Glasgow	\$578,783
Barry Technology Services	Barry and McDonald Counties	\$82,800
Callabyte Technology, LLC	South of Jonesburg, Warren County	\$138,000
Chariton Valley Communications	Keyettesville, Chariton County	\$219,671
Chariton Valley Communications	Brookfield East, Linn County Brookfield	\$71,902
Chariton Valley Communications	West, Linn County	\$226,118
Chariton Valley Communications	Long Branch Lake, Macon County	\$82,800
Chariton Valley Communications	Northwest of Hannibal, Marion County	\$175,950
Chariton Valley Communications	North of Palmyra, Marion County, Ozark	\$120,750
Higher Vision Works, LLC	Taney County	\$94,500
Midwest Data Center, Inc. (Telecom)	Lake Community, Big Lake, Holt County	\$483,000
SEMO Electric Cooperative	Lake Road Subdivision, Scott County	\$142,200
Socket Telecom, LLC	Ashland, Boone County	\$442,395
Socket Telecom, LLC	Fayette, Howard County	\$129,086
Socket Telecom, LLC	St. Martins, Meadowbrook, Cole County	\$15,840
Socket Telecom, LLC	St. Martins, Verdant Lane, Cole County	\$31,828

## Broadband Investment Program Recipients Round 2

<b>Recipient</b>	<b>Project Location</b>	<b>Grant</b>
Boycom Cablevision	Foxwood Pointe, Poplar Bluff, Butler County	\$96,600
Boycom Cablevision	Remington Oaks, Poplar Bluff, Butler County	\$91,699
Green Hills Telephone Company	State Highway V, Gallatin, Daviess County	\$6,900
Liberty Link, LLC	Holden, Johnson County	\$152,922
Mark Twain Communications	Gorin, Southern Scotland County	\$131,100
Socket Telecom, LLC	East Ashland, Boone County	\$81,063
Socket Telecom, LLC	Log Providence Road, Boone County	\$12,889
Socket Telecom, LLC	North New Franklin, Howard County	\$95,324
Socket Telecom, LLC	South Moberly, Randolph County	\$56,921
Socket Telecom, LLC	St. Martins Project, Cole County	\$12,672
Socket Telecom, LLC	St. Martins Expansion, Cole County	\$106,866
<b>Awards Total – Round 1&amp;2</b>		<b>\$3,882,030</b>

## Missouri Emergency Investment Program - Project Descriptions

---

### Round 1

#### **AirLink Rural Broadband, LLC – Glasgow**

AirLink Rural Broadband, LLC will construct a fiber-to-the-home service in Glasgow with the assistance of \$578,783. This project will improve internet service to 400 households in Glasgow, and will enable delivery of broadband at speeds of at least 1 Gbps/100 Mbps to the city.

#### **Barry Technology Services – Barry & McDonald Counties**

Barry Technology Services will expand broadband internet services at speeds up to 1 Gbps/1 Gbps in Barry County and McDonald County with the assistance of \$82,800. The project will connect 42 households with improved internet service.

#### **Callabyte Technology, LLC – Warren County**

Callabyte Technology, LLC will construct fiber optic cable in western Warren County and south of Jonesburg with assistance of \$138,000, enabling up to 50 households to connect. Once construction is completed, residents in the project area will have access to 1 Gbps/1 Gbps fiber optic internet.

#### **Chariton Valley Communications – Keyettesville**

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$219,671 to connect up to 317 households in Keyettesville. The project will allow users access to 1 Gbps/1 Gbps service.

#### **Chariton Valley Communications – Brookfield East Project**

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$71,902 to connect up to 123 households on the east side of Brookfield. The project will allow users access to 1 Gbps/1 Gbps service.

#### **Chariton Valley Communications – Brookfield West Project**

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$226,118 to connect up to 232 households on the west side of Brookfield. The project will allow users access to 1 Gbps/1 Gbps service.

#### **Chariton Valley Communications – Long Branch Lake, Macon County**

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$82,800 to connect up to 45 households near Long Branch Lake. The project will allow users access to 1 Gbps/1 Gbps service.

### **Chariton Valley Communications – Northwest Hannibal**

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$175,950 to connect up to 95 households northwest of Hannibal. The project will allow users access to 1 Gbps/1 Gbps service.

### **Chariton Valley Communications – North Palmyra**

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$120,750 to connect up to 86 households north of Palmyra. The project will allow users access to 1 Gbps/1 Gbps service.

### **Higher Vision Works, LLC – Ozark & Taney County**

Higher Vision Works, LLC, a wireless internet service provider, will be able to accelerate their project in Theodosia (Ozark County) and Protem (Taney County) with the assistance of \$94,500. The project will extend 25 Mbps/3 Mbps internet service to 180 households in southwest Missouri.

### **Midwest Data Center, Inc. – Big Lake, Holt County**

Midwest Data Center, Inc. will expand a fiber optic network to improve broadband services from the town of Craig to Big Lake in Holt County in the northwestern part of the state. The assistance of \$483,000 will assist in connecting 140 underserved households with up to 1 Gbps/1 Gbps service.

### **SEMO Electric Cooperative – Scott County**

SEMO Electric Cooperative will expand high speed internet to the Lake Road Estates Subdivision and Highway 61 in rural Scott County. The assistance of \$142,200 will connect up to 60 households with 1 Gbps/1 Gbps internet.

### **Socket Telecom, LLC – Ashland**

Socket Telecom, LLC will construct a fiber-to-the-premise network to an area southwest of Ashland with the assistance of \$442,395. The project will provide new access to 176 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

### **Socket Telecom, LLC – Fayette**

Socket Telecom, LLC will construct a fiber-to-the-premise network to the south-central part of Fayette with the assistance of \$129,086. The project will provide new access to 240 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

### **Socket Telecom, LLC – Meadowbrook neighborhood, St. Martins**

Socket Telecom, LLC will construct a fiber-to-the-premise network to the Meadowbrook neighborhood in St. Martins with the assistance of \$15,840. The project will provide new access to 9 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

### **Socket Telecom, LLC – Verdant Lane neighborhood, St. Martins**

Socket Telecom, LLC will construct a fiber-to-the-premise network to the Verdant Lane neighborhood in St. Martins with the assistance of \$31,828. The project will provide new access to 19 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

---

### Round 2

#### **Boycom Cablevision Inc. - Foxwood Pointe Neighborhood, Poplar Bluff, Butler County**

Boycom Cablevision Inc. will construct broadband internet to the Foxwood Pointe neighborhood in a rural, underserved area near Poplar Bluff in Butler County. This project will provide upgraded service with the assistance of \$96,600 to 28 households, at speeds of up to 1 Gbps download and 100 Mbps upload.

#### **Boycom Cablevision Inc. – Remington Oaks Neighborhood, Poplar Bluff, Butler County**

Boycom Cablevision Inc. will construct broadband internet to the Remington Oaks neighborhood in a rural, underserved area near Poplar Bluff in Butler County. This project will provide upgraded service with the assistance of \$91,699 to 27 households, at speeds of up to 1 Gbps download and 100 Mbps upload.

#### **Green Hills Telephone Company – Gallatin, Daviess County**

Green Hills Telephone Company will extend fiber-to-the-home service with the assistance of \$6,900 to connect up to 5 households near Gallatin in Daviess County. The project will allow users access to 1 Gbps symmetrical service.

#### **Liberty Link, LLC- Holden and southern Johnson County**

Liberty Link, LLC will deploy a hybrid solution with fiber deployment in Holden and a fixed wireless solution to households within southern Johnson County with the assistance of \$152,922. The project will enable delivery of fiber broadband at speeds of 100 Mbps download and 20 Mbps upload to up to 97 households.

#### **Mark Twain Communications – Gorin and southern Scotland County**

Mark Twain Communications will deploy a hybrid solution with fiber-to-the-home in Gorin and a fixed wireless solution to households within southern Scotland County with the assistance of \$131,100. The project will enable delivery of fiber broadband at speeds of 100 Mbps download and 100 Mbps upload, the fixed wireless delivery will offer at least 35 Mbps download, and 12 Mbps upload to up to 178 households.

#### **Socket Telecom, LLC – East Ashland**

Socket Telecom, LLC will construct a fiber-to-the-home network to an area east of Ashland with the assistance of \$81,063. The project will provide new access to 35 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps download and 100 Mbps upload.

#### **Socket Telecom, LLC – Log Providence Road**

Socket Telecom, LLC will construct a fiber-to-the-home network to a neighborhood on Log Providence Road in Boone County with the assistance of \$12,889. The project will provide new access to 9 households. Once

constructed, Socket will provide internet service at speeds up to 1 Gbps download and 100 Mbps upload.

**Socket Telecom, LLC – North New Franklin**

Socket Telecom, LLC will construct a fiber-to-the-home network to an area north of New Franklin in Howard County with the assistance of \$95,324. The project will provide new access to 34 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps download and 100 Mbps upload.

**Socket Telecom, LLC – South Moberly**

Socket Telecom, LLC will construct a fiber-to-the-home network to a neighborhood just south of Moberly with the assistance of \$56,921. The project will provide new access to 24 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps download and 100 Mbps upload.

**Socket Telecom, LLC – St. Martins Project**

Socket Telecom, LLC will construct a fiber-to-the-home network to the neighborhood bounded by Westchase Lane, Summerhill Drive, and Summerhill Ridge in St. Martins with the assistance of \$12,672. The project will provide new access to 5 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps download and 100 Mbps upload.

**Socket Telecom, LLC – St. Martins Extension**

Socket Telecom, LLC will construct a fiber-to-the-home network to the neighborhood west of Highway 50 near Twin Oaks and Clarose Drive in St. Martins with the assistance of \$106,866. The project will provide new access to up to 40 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps download and 100 Mbps upload.
