

# Easy access to your personal and family immunization records

Docket® now integrates with ShowMeVax, Missouri's statewide immunization information system (IIS). Stay up-to-date on recommended immunizations, access official back-to-school reports, and more.

## 1. Set-up your account.

Download the free Docket app.  
Sign-up with email, Apple, or Google.

## 2. Search ShowMeVax.

**Note:** your name, date of birth, and legal sex entered in Docket must match your ShowMeVax record *exactly*. In addition, your record on file with ShowMeVax must contain a valid email address or phone number.

## 3. Manage your records.

### Back-to-School Forms

Tap the standard share icon next to your name to access a PDF record. Email, text, print, and directly from your phone.

### Immunization Reminders

Enable notifications to receive emails and/or homescreen alerts when you or a loved one are due for a recommended immunization.

### Add family members

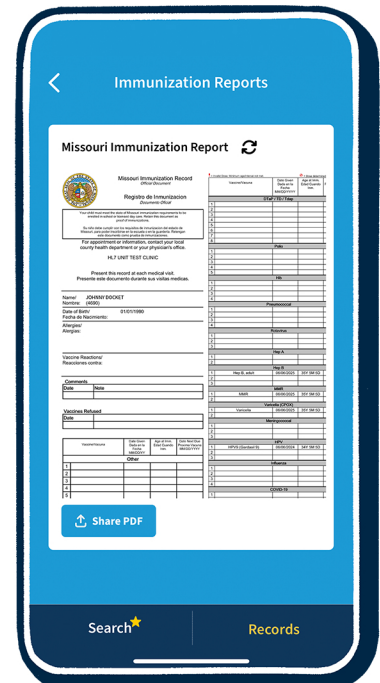

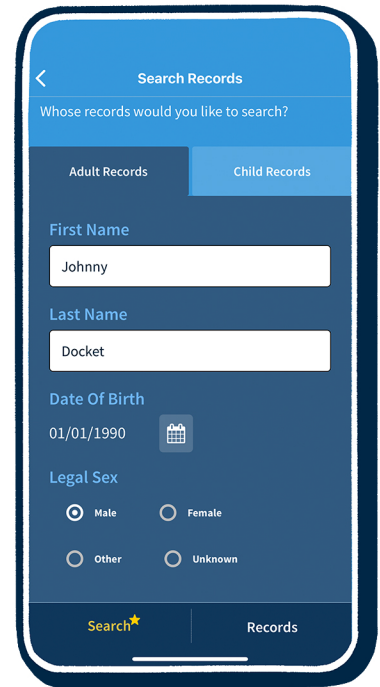

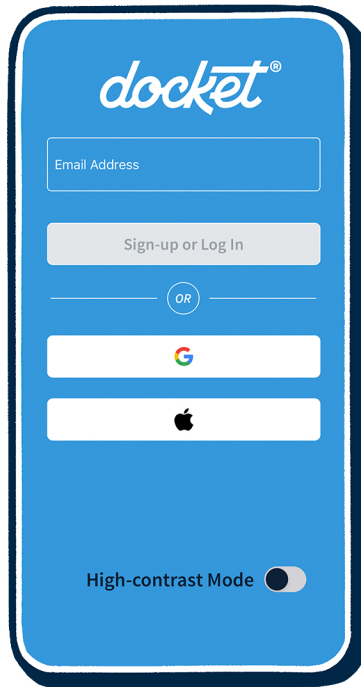

Tap the plus (+) icon on the Immunization Search History screen to add your family to a shared Docket® account.

### Easy Record Refresh

Got a new shot? Drag and release to refresh your records. Your new shot will appear automatically if it was correctly reported to ShowMeVax.
