Presents:

Spring 2026 Public Health Webinar Series

The Heartland Center at Saint Louis University is hosting a Spring 2026 webinar series focused on strengthening the public health workforce. These engaging sessions will feature speakers from multiple sectors who will share insights on emerging trends, practical skills, and innovative approaches to improving community health. Session topics include cultural humility, trauma-informed care, cross-sector public health careers, legal and policy changes shaping the field, and experiences as a senior health administrator.
