

Missouri Emergency Investment Program - Project Descriptions

AirLink Rural Broadband, LLC – Glasgow

AirLink Rural Broadband, LLC will construct a fiber-to-the-home service in Glasgow with the assistance of \$578,783. This project will improve internet service to 400 households in Glasgow, and will enable delivery of broadband at speeds of at least 1 Gbps/100 Mbps to the city.

Barry Technology Services – Barry & McDonald Counties

Barry Technology Services will expand broadband internet services at speeds up to 1 Gbps/1 Gbps in Barry County and McDonald County with the assistance of \$82,800. The project will connect 42 households with improved internet service.

Callabyte Technology, LLC – Warren County

Callabyte Technology, LLC will construct fiber optic cable in western Warren County and south of Jonesburg with assistance of \$138,000, enabling up to 50 households to connect. Once construction is completed, residents in the project area will have access to 1 Gbps/ 1 Gbps fiber optic internet.

Chariton Valley Communications – Keyettesville

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$219,671 to connect up to 317 households in Keyettesville. The project will allow users access to 1 Gbps/ 1 Gbps service.

Chariton Valley Communications – Brookfield East Project

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$71,902 to connect up to 123 households on the east side of Brookfield. The project will allow users access to 1 Gbps/ 1 Gbps service.

Chariton Valley Communications – Brookfield West Project

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$226,118 to connect up to 232 households on the west side of Brookfield. The project will allow users access to 1 Gbps/ 1 Gbps service.

Chariton Valley Communications – Long Branch Lake, Macon County

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$82,800 to connect up to 45 households near Long Branch Lake. The project will allow users access to 1 Gbps/ 1 Gbps service.

Chariton Valley Communications – Northwest Hannibal

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$175,950 to connect up to 95 households northwest of Hannibal. The project will allow users access to 1 Gbps/ 1 Gbps service.

Chariton Valley Communications – North Palmyra

Chariton Valley Communications Corporation will extend fiber-to-the-home service with the assistance of \$120,750 to connect up to 86 households north of Palmyra. The project will allow users access to 1 Gbps/ 1 Gbps service.

Higher Vision Works, LLC – Ozark & Taney County

Higher Vision Works, LLC, a wireless internet service provider, will be able to accelerate their project in Theodosia (Ozark County) and Protem (Taney County) with the assistance of \$94,500. The project will extend 25 Mbps/3 Mbps internet service to 180 households in southwest Missouri.

Midwest Data Center, Inc. – Big Lake, Holt County

Midwest Data Center, Inc. will expand a fiber optic network to improve broadband services from the town of Craig to Big Lake in Holt County in the northeastern part of the state. The assistance of \$483,000 will assist in connecting 140 underserved households with up to 1 Gbps/ 1 Gbps service.

SEMO Electric Cooperative – Scott County

SEMO Electric Cooperative will expand high speed internet to the Lake Road Estates Subdivision and Highway 61 in rural Scott County. The assistance of \$142,200 will connect up to 60 households with 1 Gbps/ 1 Gbps internet.

Socket Telecom, LLC – Ashland

Socket Telecom, LLC will construct a fiber-to-the-premise network to an area southwest of Ashland with the assistance of \$442,395. The project will provide new access to 176 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

Socket Telecom, LLC – Fayette

Socket Telecom, LLC will construct a fiber-to-the-premise network to the south-central part of Fayette with the assistance of \$129,086. The project will provide new access to 240 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

Socket Telecom, LLC – Meadowbrook neighborhood, St. Martin

Socket Telecom, LLC will construct a fiber-to-the-premise network to the Meadowbrook neighborhood in St. Martin with the assistance of \$15,840. The project will provide new access to 9 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.

Socket Telecom, LLC – Verdant Lane neighborhood, St. Martin

Socket Telecom, LLC will construct a fiber-to-the-premise network to the Verdant Lane neighborhood in St. Martin with the assistance of \$31,828. The project will provide new access to 19 households. Once constructed, Socket will provide internet service at speeds up to 1 Gbps/100 Mbps.
