

Project SAFE (Safe, Alive, Free)

*Apply to become a Project SAFE
violence prevention service provider.*

**All applicants
must apply
through the
City's eSupplier
portal**

Project SAFE (Safe, Alive and Free) is Minneapolis' approach to reducing gun violence by focusing support on the people and groups at highest risk of being involved in serious violence.

The program brings together community organizations, outreach workers, service providers and law enforcement to connect people with support, help prevent violence and improve safety. Project SAFE serves both youth and adults across Minneapolis.

What we're looking for

The City is seeking qualified community organizations to help support Project SAFE. Organizations should have:

- Experience working directly with youth and adults at high risk of gun violence.
- A strong understanding of Group Violence Intervention (GVI) or similar violence prevention approaches.
- The ability to manage City contracts and meet financial and reporting requirements.
- Eligibility to do business with the City of Minneapolis and State of Minnesota.
- The ability to meet insurance, background check and youth safety requirements.

Pre-proposal meeting
