Ifeyinwa V. Asiodu, PhD, RN, IBCLC
Assistant Professor
UC San Francisco School of Nursing
Department of Family Health Care Nursing

Hafsatu Diop, MD, MPH
Director, Officer of Data Translation
Bureau of Family Health and Nutrition
Massachusetts Department of Public Health

Overview

This webinar will focus on how providing breastfeeding support and oral health improves maternal health throughout the life course and reduces inequities. At the end of this webinar, participants will be able to:

1. Understand the importance of breastfeeding and discussing the importance of lactation support during COVID-19.
2. Describe how population-based public health data can be leveraged to change clinical practices to improve maternal oral health.
3. Learn about programs and resources that support breastfeeding and oral health.

Audience

Health and social services providers, lactation consultants, oral health providers, public health professionals, early childhood education programs, program and policy staff, community and faith-based organizations along with stakeholders addressing women and girls' health issues
