

2017-2018 HOME BASE MEET-UPS

#HBmeetups - Collaborate with your peers via this hashtag!!

The NCDPI Home Base Team is excited about another great year of networking and collaborative experiences through the Home Base Meet-Ups. These regionally based meetings are for Home Base participants to meet up face-to-face, network, and collaborate. ***You are free to attend any of the meetings according to your availability and proximity.***

Goals:

- Foster positive, productive field-based relationships with stakeholders.
- Elicit feedback from the field to inform state-level decision makers.
- Provide coordination between different DPI-based groups that serve end users of Home Base Products.
- Communicate product-specific information to LEA personnel.

Audience:

- LEA/Charter-level lead contacts for each of the of Home Base components.

Please designate one representative for each product: PowerSchool, Schoolnet, and TNL/Performance Matters. This person will be responsible for bringing information and training items back to their district.

Register Here: <http://bit.ly/hbmuaug17>

See Meet-Up information below. ***Remember, you are free to attend any of the meetings according to your availability and proximity.***

Date	Regions	Location	Date	Regions	Location
