

Registration Information for Webinars on Low Performing Schools and Districts

After the release today of the Low Performing designation for schools and districts, NCDPI's District and Regional Support unit provides a webinar for leaders in these schools and/or districts, whether newly designated or continuing in the designation.

The webinars will provide information for leaders concerning the policies, expectations, and deadlines for the Comprehensive Plan required for Low Performing Schools and Low Performing Districts, respectively.

PLEASE NOTE: Each webinar, one for Low Performing Schools and one for Low Performing Districts, will be offered twice, and participants need only attend one of the offered webinars. Only leaders in schools and districts who are designated Low Performing need to register.

Please find the registration links below:
