

Coastal Preparatory Academy is working hard with our virtual learning. Our K-5 teachers are providing virtual instruction on the Core Knowledge curriculum and Singapore to our students. Check out one of our listening and learning activities from one of our 2nd grade teachers <https://drive.google.com/file/d/1y-AIKnEzFG0njBsW11nrdai4SjsNsKne/view?usp=sharing>. At Coastal Prep we believe in educating the whole child. Our encore team has been busy providing videos and popping into virtual classrooms so our students can draw, sing, do projects, learn Spanish, and get active with our Navigators. Check out our youtube channel with some of the great videos <http://www.youtube.com/c/CoastalPreparatoryAcademy>

The Upper School has been implementing a more traditional schedule with video conferencing and other digital means, check out their [remote learning schedule](#).

We are excited about our new upper school building for the 20-21 school year. Check out a video of the status of our building <https://youtu.be/VL92Udqf6tY>.
