

Jacobs Teen Innovation Challenge: Teachers (Middle and High School) sign up by November 20

Hosted by [The Jacobs Institute for Innovation in Education](#) at the University of San Diego, this global competition helps students develop an innovator's mindset and skills that cut across STEAM-sector jobs by using design thinking to engage in social good innovation.

Using [Pactful](#), students learn essential skills such as empathy, critical thinking, community engagement, design, prototyping, and storytelling that benefit them in future-focused careers. Pactful and this challenge are sponsored through the generosity of Dr. Irwin and Mrs. Joan Jacobs.
