

Exceptional Children Information for Parents

March 17, 2021

Department of Public Instruction Office of Early Learning

The NC [Office of Early Learning](#) provides support for PreK to Grade 3 Early Learning and federally funded preschool programs including Preschool Exceptional Children, Title I Preschool, and the NC Head Start State Collaboration Office. On their website, you will find information broken into helpful categories:

- PK-3 Early Learning
- Preschool Exceptional Children
- Title I Preschool
- Head Start State Collaboration Office
- Birth through Third Interagency Council

Additionally, the Office of Early Learning funds the NC Early Learning Network. This network provides early learning communities with professional development and technical assistance to support preschool children with disabilities and their families through the vision of DPI's Office of Early Learning. One of the great family resources is the [NC Early Learning and Development Progressions: Birth to Five](#). These learning progressions were developed for each identified goal in four developmental domains and show the steps through which children develop skills from birth to five years.

They are grouped in four developmental domains (Emotional & Social Development, Health & Physical Development, Language Development & Communication, and Cognitive Development) and show the steps through which children develop skills from *birth to five years*. You can explore by domains or selected age groups and learn what is typical development for children.

To learn more about NC Early Learning Network and their offerings, please visit their [website](#).
