

Guidance for PRC 016 – Summer Reading Camps

Original:

School Business initially set up state PRC 016 Summer Reading Camps with Purpose 5350 /Object Code 121 for all classroom teachers. The salaries were on the certified scale and audited, and experience credit was earned.

Purpose Code 5350 – Extended Day/Year Instructional services

Costs of activities designed to provide additional learning experiences for students outside of the regular required school calendar. These activities include remedial instructional programs conducted before and after school hours, on Saturdays, during the summer, or during intersession breaks.

By only allowing purpose 5350 for state PRC 016, expenditures for PRC lost their costing identity for reporting purposes. For example, EC teachers coded to PRC 016 were not easily identifiable. Therefore, the following chart changes are needed to report the summer Reading Camp expenditures more accurately.

Updated:

Purpose Code 5350 – Extended Day/Year Non - Instructional Services

Costs of activities designed to provide additional non-instructional experiences for students outside of the regularly required school calendar. These include activities not directly related to delivering or remediating the standard course of study. These activities are conducted before and after school hours and include activities such as clubs, sports, enrichment activities, etc.

For Remediation, Intersessions, Summer, related to delivering instructional services, PSUs use the purpose codes that designate the program area (LEP, AIG, Regular, EC, etc.).

Object Code 126 – Extended Contracts

Pay for additional time and service beyond the standard base contract.

State PRC 016 – Summer Reading Camps – Chart of Accounts

Teachers are to be paid from object 126. They must be paid at a minimum of state certified state salary

For Remediation, Intersessions, Summer, related to delivering instructional services, PSUs use purpose codes that follow the program area (LEP, AIG, Regular, EC, etc.).

Effective July 1, 2022, Purpose code 5350 will be removed from PRC 016.

The PRC016 chart will be modified to include object code 126, Extended Contracts, with the instructional purpose codes (5110, 5210, 5240, 5260, 5270, 5310).
