NCDPI WORLD HISTORY WEBINAR SERIES - Webinar Session #3

“The History of European Antisemitism”

Tuesday, February 20 – 4:00 pm - 6:00 pm EST

The History of European Antisemitism is the third webinar in the World History Webinar Series for the 2023-24 school year.

The Holocaust is an incredibly important topic for school curriculum. But, often, students are left with an unclear picture of how antisemitism developed, long before the Holocaust took place.

This session has been designed to help educators build and enhance their understanding of the complex history of antisemitism in Europe prior to the Holocaust and build connections between historical and modern forms of antisemitism.

This webinar will outline the historical origins of antisemitism, it will organize antisemitism into four distinct categories, and provide both historical and modern examples of each of the four types of antisemitism, all while utilizing many of the robust primary source activities that teachers can take to the classroom.

The content of this webinar will support the following N.C. Standards:

- **7.H.1.1** Distinguish specific turning points of modern world history in terms of lasting impact.
- **WH.H.1.1** Distinguish key turning points in world history in terms of multiple causes and outcomes.
