

# GRADES 6-12 MATH VISION RETREAT

**MARCH 17-20**

Complete the  
interest form  
by February 17

Does your district have a vision for high-quality and equitable math instruction? Come learn about research-based math instruction, drafting a vision, and using that vision to take action! Districts will send a team of four people: district instructional leader, school administrator, math teacher, and math coach. Together, your team will engage in a collaborative journey to deepen your understanding of effective math instruction, develop a shared district vision, and create actionable plans to elevate math learning for all students.

**FREE**

Free retreat hosted at NCCAT's beautiful Ocracoke campus. Lodging and food provided. Districts responsible for funding mileage and substitutes if needed. Interested districts will be selected to ensure representation across the state.

**GOALS**

Learn about research-based math instruction for grades 6-12.

Draft your district's vision statement for grades 6-12 math.

Collaborate with your own team and other districts to make an action plan!

Hosted by NCCAT  
Ocracoke Campus
