The **myMarpai Medical Shopping Tool** shows the actual prices charged for services and procedures, so you can make decisions based on price, frequency, and convenience. It is a simple way to see how much money you can save with your provider choices. You'll see that **prices for medical tests and procedures vary radically across healthcare providers**, even in the same town! If you are not careful, you can end up paying 5x to 10x more than you needed which can lead to higher out-of-pocket costs and also higher health insurance premiums.
