*Did you know that Gen Zs  
will make up 27% of  
Union County's employee  
population within the next  
2 years?*

*Did you know that Millennials  
and Gen Zs already make up  
almost 50% of Union County's  
workforce?*

*The more we learn to  
understand these groups, the  
better we can recruit them,  
retain them, communicate  
with them, and engage them.*
