

## *Frequently Asked Questions*

# Measles Vaccine & Immunity Testing Drive-Thru Clinic

Union County Public Health

### **1. What services are offered at the drive-thru clinic?**

The clinic offers MMR (measles, mumps, rubella) vaccinations and measles immunity blood testing (IgG titers). Services are provided through a safe, efficient drive-thru model to reduce exposure risk.

**2. Who should get an MMR vaccine at this clinic?** Anyone who is not up to date on their measles vaccination or is unsure of their vaccination status may benefit from an MMR vaccine. This includes children and adults who have not received the recommended doses.

### **3. Who should consider measles immunity testing (IgG blood test)?**

Immunity testing is available for individuals who believe they may already be protected because they had measles in the past or received at least one MMR vaccine, but do not have documentation and want to confirm immunity.

### **4. Is there a cost for the MMR vaccine?**

There is no immediate out-of-pocket cost for MMR vaccination at this clinic. Patients with insurance or Medicaid will be billed for any charges not covered by their plan.

### **5. How much does the measles immunity (titer) blood test cost?**

The measles immunity blood test costs \$68 and can be billed to insurance/Medicaid.

**6. How will I receive my immunity test results?** Test results will be available through an online patient portal. You will receive instructions on how to register and access your results once they are completed at the event.

### **7. How long does it take to get measles immunity test results?**

Results are typically available within 1–2 business days after testing and can be viewed through the patient portal once finalized.

### **8. Can I get vaccinated or tested if I'm unsure of my vaccination history?**

Yes. If you are unsure of your vaccination or immunity status, you may choose to receive the MMR vaccine or have immunity testing done. There is no harm in receiving another dose of MMR if you are already immune.

### **9. What if I can't attend the drive-through clinic? Are other options available?**

Yes. Individuals who are unable to attend may schedule an appointment with the [Union County Public Health Immunization Clinic](#) at 704-296-4423.
