<b>Native American Students</b> - Percentage demonstrating proficiency during the 2022-2023 school year	<input type="text"/> %	<input type="text"/> %	<input type="text"/> %

### Reporting Justification

<p><b>To determine the number of students demonstrating proficiency, it is necessary to document which assessment was used, determine a baseline, interim, and end-of-year assessment window, and understand how scores will be interpreted to determine proficiency. In the boxes below, describe the process used at your site during the 2022-2023 school year.</b></p>	
<p>React to the data, were the numbers what your team expected?</p>	
<p>How were the goals your team set in the fall influenced by student data? How can you use this data to inform your team's goal-setting in the following year?</p>
