

ND A+ Navvy ESSENTIALS & EXTENSIONS

Self paced courses through the ND Educational Hub

ND A+
Technical Assistance Center

Navvy ESSENTIALS

Navvy Essentials is an introductory professional learning course designed to **build a strong foundation in Navvy's classroom-based formative assessment system.**

REGISTER NOW 

WHAT WILL I LEARN?

- ✓ The purpose and function of Navvy as a formative assessment system
- ✓ How Navvy supports student learning through intentional use of the tool
- ✓ Best practices for system-level implementation
- ✓ Strategies for integrating insights into instruction and broader school efforts

Navvy EXTENSIONS

Pre-requisite: Navvy Essentials

Navvy Extensions: Applying Data for Instructional Impact builds on the foundational learning from Navvy Essentials. This course supports educators in moving from familiarity with the system to **intentional classroom application.**

REGISTER NOW 

WHAT WILL I LEARN?

- ✓ How to use Navvy data to inform first instruction
- ✓ Effective collaboration around student learning evidence
- ✓ How to design personalized interventions that support targeted, effective teaching

This series is intended to support educators in ND schools or districts administering the ND A+ Interim assessment.
