March 19, 2020

Dear Branchburg Residents,

The Branchburg Health Department has notified us that one of our residents has tested positive for the 2019 Novel Coronavirus. Our thoughts are with this resident and their family.

The Health Department is currently working to conduct a thorough investigation to identify other individuals with whom the patient may have come in contact. Officials will then contact them in order to provide the necessary supports and guidance.

Branchburg is a strong community, but this confirmed case is a reminder to all that we are not immune to current public health concerns. However, all residents can make deliberate efforts to flatten the curve of virus transmission by practicing social distancing, changing higher-risk plans like dining out, using public transportation, traveling, and attending large gatherings. It is similarly important that those with questions seek appropriate guidance and medical care at the direction of primary care physicians.

Please continue to support one another during a challenging time for our local, state, and national communities. Be certain to follow recommendations from the Centers for Disease Control, the New Jersey Department of Health, and the Township of Branchburg.

I ask everyone to please be patient as we continue to work to provide accurate information to the public.

Stay well and we will all get through this pandemic together.

Thank you for your cooperation.

Sincerely,

Thomas Young, Mayor
