

This technical map illustrates a water distribution system, showing a network of streets and water mains. The map is color-coded to indicate different types of pipe work: purple for 'Uprates', yellow for 'Retirements', and green for 'Remote Relief Path'. A legend in the bottom right corner provides a key for these symbols and a 'Sequence Legend' for 'Tie In Point' and 'Valve'. The map also shows various landmarks, including 'Newark City', 'Maplewood Twp', and 'Irvington Twp'. The map is oriented with North at the top.

Legend:

- Uprates (Purple line)
- Retirements (Yellow line)
- Remote Relief Path (Green line)

New Main Size
