

# NEW YORK'S GREAT LAKES ACTION AGENDA SUB BASIN WORK GROUPS

*Sub Basin work groups will identify and advance priority projects to achieve the goals of New York's Great Lakes Action Agenda using a place-based, ecosystem-based management approach.*

- **CONNECT, COORDINATE & COLLABORATE** with state and federal agencies, local governments, academic institutions and other key partners to advance local project needs.
- **LEVERAGE** resources and expertise to address shared watershed challenges and goals.
- **PREPARE!** Develop competitive project proposals in advance of tight RFP deadlines.
- **SCALE UP YOUR WORK** by pursuing landscape-scale projects with work group partners.
