

NEW YORK'S GREAT LAKES ACTION AGENDA SUB BASIN WORK GROUPS

Sub Basin work groups will identify and advance priority projects to achieve the goals of New York's Great Lakes Action Agenda using a place-based, ecosystem-based management approach.

- **CONNECT, COORDINATE & COLLABORATE** with state and federal agencies, local governments, academic institutions and other key partners to advance local project needs.
- **LEVERAGE** resources and expertise to address shared watershed challenges and goals.
- **PREPARE!** Develop competitive project proposals in advance of tight RFP deadlines.
- **SCALE UP YOUR WORK** by pursuing landscape-scale projects with work group partners.

Join Us!
