

Early Learning Assessment Training for Support Professionals

Registration for the Early Learning Assessment Training for Support Professionals is now open through the Ohio professional Registry (OPR). Starting in September, we will offer an ELA training designed specifically for assistant teachers, paraprofessionals, and educational aides. This 100% online training will be for anyone who will be supporting a fully ELA-trained teacher with using the ELA. This training provides an overview of the Early Learning Assessment and focuses on observational assessment concepts including how to document observational evidence. Registration for this training will be through the Ohio Professional at www.registry.occrra.org. Teachers can register by entering the ST number into the search field. Please only register for one session. A meeting invitation with the zoom link for the training will be sent to the email listed in the participant's Ohio Professional Registry account. Please accept or decline the meeting invitation to confirm your attendance.
