

# A Day In the Life

## Grades 6 - 12 Apex Remote Learning

### At Home

At home, Jacob will access Apex using a district-issued Chromebook to prepare for the daily lessons and learning activities. The content will be consistent with the semester content used in the “in-person” setting.

### Logging In/Setting up for the Day

Jacob understands the importance of planning and managing his day. He reviews his schedule for the day and makes sure to organize his materials that he will need for all of his classes. After preparing for his classes, Jacob sits at his desk away from distractions and logs into his first class, ready to begin.

### Class Routines

Following a sample schedule below, Jacob will log into his Apex class each day in each content area. The pacing and activities for each class mirror that of the instruction taking place in the “in-person” class. Jacob will also login to his gmail account as needed to participate in one-on-one communication with his virtual Deer Park teacher. Students in grades 7-12 must complete 28.75 hours of work per week to be considered in full attendance (5.75 hours/day).

### Lunch

At Jacob’s lunch time, he takes a break from the virtual learning atmosphere to stretch, eat lunch, and enjoy some downtime before preparing for other classes. After lunch and a break, Jacob takes some time to reorganize his materials that he will need for his next classes.

### Teacher Connections

As Jacob has questions that come up from a class, Jacob can reach out to his virtual Deer Park teacher in a variety of ways. As with “in-person” instruction, if Jacob has a quick question for clarification of understanding, he will email his virtual Deer Park teacher. When Jacob needs more in-depth support to work through a larger curricular idea, he can email his virtual Deer Park teacher to schedule a virtual meeting. At any time during the virtual learning process, Jacob is encouraged to reach out to his virtual teacher for help.

### Sample Virtual Schedule
