

Safety Projects

County	Project Description	Safety Funds
Van Wert	Construct two Restricted Crossing U-Turns on US 30 at State Route 49 and Payne and Convoy-Heller roads. Remove the median at Dixon Cavett Road. Proven safety countermeasure to prevent severe crashes at high-speed intersections. Good project score.	\$5,470,000 Construction FY27
Van Wert	Construct a single-lane roundabout on US 224 at Lincoln Highway. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Good project score.	\$2,970,000 Construction FY27
Seneca	Construct a single-lane roundabout on State Route 12 at County Road 592. Intersection skew. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections.	\$3,003,200 Construction FY28
Ashland	Construct an RCUT on US 30 at State Route 511. RCUTS are a proven safety countermeasure to prevent severe crashes at high-speed intersections. Being done in conjunction with rehab project.	\$1,735,000 Construction FY28
Ashland	Construct an RCUT on US 30 at County Road 2175 and 30A. RCUTS are a proven safety countermeasure to prevent severe crashes at high-speed intersections. Being done in conjunction with rehab project.	\$1,605,000 Construction FY28
Wayne	Construct an RCUT on US 30 at Fry Road. RCUTS are a proven safety countermeasure to prevent severe crashes at high-speed intersections. Being done in conjunction with rehab project.	\$1,460,000 Construction FY28
Wayne	Construct a single-lane roundabout on State Route 585 at Apple Creek/Five Points Road. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Confusing geometry at intersection with a high percentage of trucks and angle crashes.	\$2,001,100 Preliminary Engineering /Design FY27

Safety Projects

County	Project Description	Safety Funds
Stark	Installing a roundabout on State Route 172 at Alabama Avenue. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Ranked statewide location.	\$2,750,000 Construction FY27
Mahoning	Install a single-lane roundabout on State Route 46 at New Road. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Ranked statewide location.	\$2,200,000 Construction FY27
Licking	Constructing a single-lane roundabout at State Route 16 and York Road. The committee would like to see more engineering detail on the roundabout and MOT design with the hopes that costs can be reduced.	\$500,000 Construction FY24
Union	Construct a single-lane roundabout at State Route 31 and State Route 347. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Ranked statewide location.	\$3,000,000 Construction FY28
Union	Construct a single-lane roundabout on State Route 4 at State Route 347. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Ranked statewide location.	\$3,700,000 Construction FY26
Fayette	Construct a single-lane roundabout at US Route 22 and Jamison Road. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Quick, low-cost improvement.	\$1,579,000 Construction FY26
Franklin	Construct a single-lane roundabout on State Route 665 at US Route 62. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Ranked statewide location.	\$4,609,000 Construction FY27

Safety Projects

County	Project Description	Safety Funds
Franklin	Construct a shared use path and pedestrian tunnel on Cemetery Road over Interstate 270 in Hilliard. Providing safe connections across the freeway for bicyclists and pedestrians.	\$2,949,371 Construction FY27
Franklin	Construct a roundabout at the Interstate 670 off-ramp at Johnstown Road and East 17th Avenue. Good countermeasure to address bicyclist safety concerns with the intersection.	\$2,000,000 Construction FY27
Franklin	Roundabout and pedestrian improvements on Roberts Road from Brookford Drive to Willow Glen Road. Providing funding for pedestrian safety improvements.	\$2,000,000 Construction FY28
Mercer	Construct a single-lane roundabout on US 127 at State Route 119. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. High score.	\$3,036,500 Construction FY27
Montgomery	Construct a road diet and shared use path on Keowee Street from First to Fifth streets in Dayton. Ranked location. Proven safety countermeasure.	\$2,062,629 Construction FY26
Montgomery	Construct sidewalks on both sides of the Kingsridge Road between State Route 741 and Lyons Ridge Drive. Proven safety countermeasure to address pedestrian safety.	\$1,500,000 Construction FY27
Montgomery	Install a single-lane roundabout at Miamisburg Springboro Pike and Benner Road. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections.	\$2,187,000 Construction FY27

Safety Projects

County	Project Description	Safety Funds
Montgomery	Intersection improvements at Woodman Drive and Eastman Avenue in Riverside. Providing funding to upgrade the signal to provided protected left turns.	\$500,000 Construction FY25
Butler	Build a single-lane roundabout at Dimmick Road and McCauly Road. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections.	\$927,218 Construction FY26
Butler	Convert the interchange to a Diverging Diamond Interchange of State Route 747 at State Route 129 in Hamilton. Statewide ranked location.	\$300,000 Preliminary Engineering FY26
Clermont	Install turn lanes, sidewalks, traffic signals and other pedestrian improvements at State Route 132 in Owensville. Village needs a small amount of funding to construct this project. Large local commitment of funds. District supportive.	\$594,469 Construction FY24
Brown	Construct a roundabout on US 68 at Greenbush Road. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Ranked statewide location.	\$3,786,773 Construction FY26
Holmes	Construct a single-lane roundabout on US 62 at State Route 557. Proven safety countermeasure to reduce speeds and prevent severe crashes at intersections. Demonstration project to prove the design works. No state system roundabouts in District 11.	\$2,320,600 Construction FY27
Total		\$61M
