

In June 2026, Ohio Governor Mike DeWine, Lt. Governor Jim Tressel, and Ohio Department of Transportation (ODOT) Director Pamela Boratyn announced that the Transportation Improvement District (TID) Program would award \$8.5 million to support 24 transportation projects in 21 counties. The selected projects support the program’s goals of job creation and retention, economic development, intergovernmental collaboration, and public-private investment. The Ohio Department of Transportation is the source of information in this spreadsheet. Members of the media with questions on the grant program should contact ODOT Chief Communications Officer David Rose at 614-623-4814 or david.rose@dot.ohio.gov. With questions on a specific project please contact the entity receiving the grant.

Project Sponsor	Project Name	Project Description	New Jobs	Retained Jobs	Year	Funding
Allen County TID	McClain & Breese Road Intersection Improvements	This project in the City of Lima includes the detailed design to improve the McClain and Breese Road intersections. Multiple manufacturers and distribution centers employing over 180 people will benefit from this project.	0	182	2027	\$ 390,000.00
Mercer County TID	Philothea Road Widening	This construction project in Butler Township consists of widening of shoulders, clear zones, pavements, and intersection radii along Philothea Road that will benefit multiple agricultural businesses.	25	126	2027	\$ 375,000.00
Williams County TID	Selwynn Drive Road Improvements	This project in the Village of Holiday City entails full-depth reconstruction of Selwyn Drive as well as widening and drainage improvements. This project will improve access to 560 jobs and support over \$27 million in capital investment.	43	519	2027	\$ 500,000.00
Wood County TID	South Road and Glenwood Road Roundabout	This project includes detailed design, right-of-way acquisition, and construction of a roundabout at South Road and Glenwood Road in the City of Rossford. This project will support a new manufacturer to Ohio employing over 500 and \$190 million in private sector capital investment.	541	0	2027	\$ 500,000.00
Wood County TID	Buck Road Improvements	This project in the City of Rossford entails preliminary engineering for upgrading the existing signalized interchange to dual roundabouts. This project will improve access for over 1,000 employees, as well as an additional 165 acres of developable land.	0	1,000	2027	\$ 500,000.00
Medina County TID	North Industrial Parkway Reconstruction	This project will consist of major pavement rehabilitation of North Industrial Parkway in the City of Brunswick. Multiple businesses in the industrial park have invested over \$10 million and will create and retain approximately 2,200 jobs.	4	107	2027	\$ 500,000.00

Wayne County TID	N. Geyers Chapel Road Reconstruction	This project includes the detailed design for the reconstruction of North Geyers Chapel Road in the City of Wooster. This improvement will provide better access for the industrial park that houses multiple manufacturers employing over 2,000.	0	2,552	2027	\$ 125,000.00
Wayne County TID	US 30, Wenger Rd & Henry St Improvements	This construction project in the Village of Dalton includes a turn lane from US 30 to Wenger Road and the extension of turn lane from US 30 W to SR 94. Improvements also include widening Wenger Road and Henry Street. A \$90 million manufacturing plant will utilize these transportation improvements.	150	2,083	2027	\$ 498,598.00
Portage County TID	SR 43 Improvements	This project consists of the rehabilitation of SR 43, the construction of a single lane roundabout, and a signal upgrade in the City of Kent. These improvements will support over \$76 million in capital investment and retain over 500 jobs.	0	583	2027	\$ 500,000.00
Summit County TID	Copley Circle Roundabout	This preliminary engineering project is for a roundabout at the intersection of Cleveland Massillon Road and Copley Road in Copley Township. This project will modernize and improve safety to a transportation hub supporting over 800 jobs within the area.	0	800	2027	\$ 150,000.00
Trumbull County TID	Educational Highway Bridge Replacement	This construction project in Champion Township will consist of replacing a corrugated steel pipe arch structure with a prestressed concrete box beam bridge on reinforced concrete abutments. The project will support approximately \$45 million in capital investment and retain over 50 jobs.	52	5	2027	\$ 500,000.00
Licking County TID	Mink St Improvements	This project in Etna Township includes the preliminary engineering for the reconstruction and widening of Mink Street between US 40 and Prince Drive. Multiple logistic centers will invest over \$650 million in their facilities.	0	3,836	2027	\$ 187,000.00
Franklin County TID	Agler Road/Stygler Road/US 62 Improvements	This project in Gahanna is for preliminary engineering to reconstruct the intersections of US 62, Agler, and Stygler Roads. These improvements are needed to support approximately \$350 million in private sector capital investment and approximately 2,000 jobs.	0	1,978	2027	\$ 200,000.00

Pickaway County TID	SR 762 & Rickenbacker Parkway Roundabout	This construction project in Harrison Township includes a roundabout and turn lane improvements at the intersection of SR 762 and Rickenbacker Parkway. This project will address safety and congestion issues and benefit freight and logistics movements in a quickly expanding area. Over \$250 million in capital investment will be invested in the area.	240	423	2027	\$ 500,000.00
Butler County TID	NHX River Crossing Project	This project entails the detailed design of a new bridge over the Great Miami River and a roundabout at US 127 in the City of Hamilton. This project will enhance access to the largest indoor sports complex in North America as well as improve east-west connectivity.	0	314	2027	\$ 450,000.00
Butler County TID	Princeton Road Improvements	This project entails the detailed design for widening the existing Princeton Road in Fairfield Township. These improvements will enhance accessibility for 700 employees and open over 150 acres of developable land.	0	700	2027	\$ 151,125.00
Clermont County TID	Woodville Pike & Deerfield Road Roundabout	This construction project is for a new roundabout at Woodville Pike and Deerfield Road in Miami and Goshen Townships. This project will provide better access for a retail corridor that continues to grow and expand with over \$13 million in private sector capital investment.	0	107	2027	\$ 437,557.00
Hamilton County TID	Kenwood Road & Montgomery Road Improvement	This Sycamore Township project is for the preliminary engineering of a right-turn lane on Kenwood Road at Montgomery Road. This needed project will help alleviate congestion in a highly traveled commercial center.	0	10,000	2027	\$ 250,000.00
Warren County TID	Columbia Road Improvements	This project in Deerfield Township includes the detailed design for road widening, turn lanes, and a traffic signal upgrade on Columbia Road. This project will improve traffic flow to business districts that will retain over 2,000 jobs.	0	2,146	2027	\$ 140,000.00
Meigs County TID	CR 352 Bridge Replacements	This detailed design project in Rutland Township entails the replacement of an existing single-span truss bridge with a new single-span prestressed I-beam superstructure on new abutments. This project will open approximately 50 acres, improve access by allowing unrestricted, legal load transports, as well as serving as a connector road between two state routes.	0	11	2027	\$ 44,953.00
