

HB 123 Threat Assessment Evidence Based Training

Approval Request Form

Ohio Revised Code section [5502.263](#) requires the department of public safety, in consultation with the department of education and the attorney general, to develop and maintain a list of approved training programs for completion by school threat assessment team members prescribed in section [3313.669](#) of the Revised Code, one of which must be free or of no cost to schools. Programs must be evidence based and include specific instruction elements as defined by section 5502.263.

For an application to be considered complete, it must contain the following:

1. Completed application form below.
2. Supporting documentation and publications.

Applications must be sent to OhioSchoolSafetyCenter@dps.ohio.gov and the subject of the email must include the following information, "Threat Assessment Training Approval Request – Name of Provider Here." Please be sure to include the provider name in the email subject. Please completely fill out the below information and attach supporting documentation as required to the application email.

Name of Applicant:

Email Address of Applicant:

Phone Number of Applicant:

Course Information:

Name of course:

Name of course provider:

Where can schools access this course:

Online

In Person

If the course is online, where can it be accessed?

If the course is in person, how can schools access it?

Is there a cost associated with this training?

Yes

No

Does the training provide a completion certificate?

Yes

No

Each training course is required to meet the evidence based standard from the legislation. Please check the box next to the standard that your course meets. Please provide all supporting documentation with this application form showing that you meet with an explanation of what documents you are providing and how you meet the standard. Incomplete applications will not be processed.

(A) As used in this section, "evidence-based" means a program or practice that does either of the following:

Demonstrate a rationale based on high-quality research findings or positive evaluation that such a program or practice is likely to improve relevant outcomes and includes ongoing efforts to examine the effects of the program or practice; OR

Has a statistically significant effect on relevant outcomes based on:

- (a) Strong evidence from at least one well-designed and well-implemented experimental study;
- (b) Moderate evidence from at least one well-designed and well-implemented quasiexperimental study; or
- (c) Promising evidence from at least one well-designed and well-implemented correlation study with statistical controls for selection bias.

The training must also include instruction in the following areas. Please check the box for each instruction element included in your training and provide copies of your curriculum that meet this requirement. Curriculum will only be used for purposes of determining this compliance requirement and will be subsequently deleted/destroyed after approval or denial. Please describe below the documents you have submitted and where to find the required elements.

Identifying behaviors, signs, and threats that may lead to a violent act;

Determining the seriousness of a threat;

Developing intervention plans that protect the potential victims and address the underlying problem or conflict that initiated the behavior and assessments of plan results.
