Planning for Distracted Driving Awareness Month

Distracted driving has become a deadly epidemic on Ohio roadways. According to the National Highway Traffic Safety Administration (NHTSA), distracted driving killed more than 3,000 people in 2022. Almost 50% of drivers in 2024 admit to picking up their phone to read or send a text message while driving. This webinar will help employers understand the hazards, their responsibilities, and resources that are available to educate their employees while participating in April's Distracted Driving Awareness Month.
