OKLAHOMA HAY MARKET REPORT

10-14-22

Receipts: 4,815 Last Reported: 2,804 Year Ago: 565

Compared to the last report: Some would say this is the "perfect storm" for buyers and sellers of hay. From the supply and demand to the drought, and the cost to produce, or buy the hay. This is the perfect storm that we as agriculturalists are trying to find different ways to get through these times. Hay is continuing to move with some suppliers in the site of running out of hay already. As we look toward the future we do see some rainfall and cooler temperatures heading our way, unfortunately, it is too late for the hay producers. As we look at the Oklahoma Mesonet Drought Monitor we are at 29.1 percent in exceptional drought, 85.6 percent in an extreme drought, 99.6 percent in severe drought, we are 100 percent in moderate and abnormally dry conditions.

*** The next report release will be on October 28th ***
