University of Oklahoma - Peer Mentoring Program

The National Center for Disability Education and Training is recruiting mentees (aged 16-21) for a peer mentorship program located within 30 miles from OU - Norman. The program aims to foster self-advocacy, establish a network, and increase confidence within both mentor and mentee. Mentees should have an interest in post-secondary education or training opportunities and have a goal of employment. Mentees will be assigned a mentor based on career and social goals and will be asked to meet with their mentor once per week. Contact us for additional information.
