Be a part of an on-site STEM Camp in your area. The no cost three day camps are now being planned for the summer. The camps utilize project based learning emphasizing STEM Skills such as the use of computer and related technologies to give students the pre-employment experiences and skills that will help them prepare for post-high school success.

Come and be a part of this awesome opportunity to learn about computer aided design, product development, and what your future can include. Participants must be able to follow verbal instructions with limited support. Lunch and snacks are provided at no cost each day!
