

BUILD RELEASE NOTES

Driver License Examiners and Licensed Operators

1. The DL-10 has been updated to include the following information:
 - a. Issuance and expiration date of credential
 - b. Residential and mailing addresses
 - c. Fees description, amount and total
2. CLP transactions have been corrected to allow selection of 8-year duration.
 - a. When a customer is attempting to obtain a CDL license the decision for either an 8-year or 4-year license is done when they get the CLP license. If selected, the customer can now pay for an 8-year license when they get their CLP and only pay the replacement fee when obtaining their 8-year CDL.

Business Support Services and Driver Compliance

1. New conviction codes have been added for compliance with SB 366. Updates to the violation code table now include the following codes.
 - a. These codes will be used on customers with a violation date on or prior to 10/31/2022: DI0, SI1, SI2, DI3, DI6, DI7, AG1, AD1, AD2, AD3, A08, A12
 - i. Associated correspondence will be generated without the mandatory IDAP language.
 - b. These codes will be used on customers on or after 11/01/2022: DI0A, DI1A, DI2A, DI3A, DI6A, DI7A, AD1A, AD2A, AD3A, AG1A, A08A AND A12A
 - i. Associated correspondence will contain mandatory IDAP enrollment before reinstatement.
2. ADO 151089 OLETS: Addressing the fact that the sex offender flag isn't appearing on the DL responses.
 - a. New logic has been added to OLETS returns to show a sex offender indicator. This

BUILD RELEASE NOTES

indicator will show “YES” on all levels of sex offender listed below. This indicator will say NO on non-sex offender flagged files.

- i. Aggravated
 - ii. Habitual
 - iii. Aggravated and habitual
 - iv. Sex offender not aggravated or habitual
3. ADO 204206 Data Fix: Inactivating skeleton licenses if the customer has a current active license (non-state ID).
 - a. A data fix has been run to inactivate skeleton records when an active driver license exists.
 4. ADO 198035 OLETS - Integration not sending over restrictions when a credential is expired, suspended or revoked: instead of -
 - a. OLETS returns will now show restrictions regardless of credential status.

Business Support Services

1. ADO# 201391: Collisions error queue, numeric sequence
 - a. In the past, validator errors for “numeric sequence” could not be cleared. Logic has been improved to allow this error to be corrected.
2. ADO# 201392: Collisions error queue, unit first contact
 - a. In the past, validator errors for “first contact unit” could not be cleared. Logic has been improved to allow this error to be corrected.
3. ADO# 201458: Collisions error queue, alcohol involved must be false
 - a. In the past, validator errors for “alcohol involved must be false” could not be removed. This error can now be removed if one of the following three selections are made on the collision persons.
 - i. If Unsafe Unlawful Contributing Factor = 80 - Alcohol-DUI/DWI
 - ii. If Driver Pedestrian Condition = 02 - Drinking - Ability Impaired or 03 - Odor of Alcohol Beverage
 - iii. If BAC >= .08

BUILD RELEASE NOTES

4. ADO# 199223: Collisions error queue, legal speed for pedestrian or animal
 - a. In the past, validator errors for pedestrian or animal speed could not be corrected. Now, placing a "0" in the speed field will allow the error to be removed.

5. ADO# 210003: When "burned" is checked in the collisions error queue, it is not clearing
 - a. In the past, validator errors for "Cannot be code 11 if unit is not burned" could not be cleared. Logic has now been improved to allow this error to be corrected if the burned flag is set to "yes" on collision.

6. ADO# 210621: Collisions error queue, injury severity and passengers
 - a. In the past, validator errors for "injury severity" could not be cleared. Logic has been improved to allow this error to be corrected.
