

BUILD RELEASE NOTES

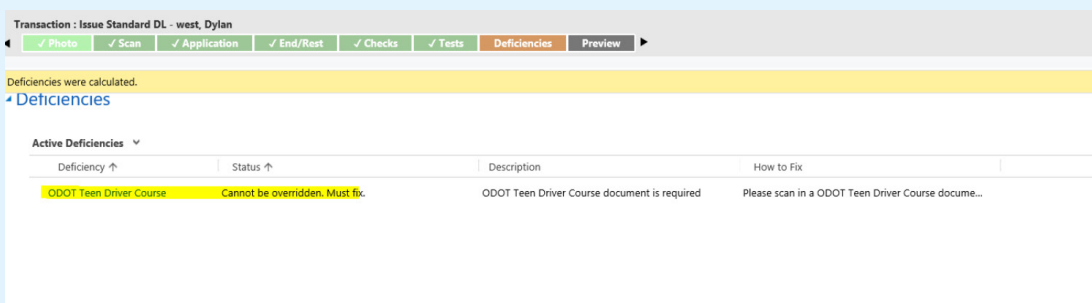

CR438 - ODOT Oklahoma Work Zone Safe Course Document and Deficiency

Customers under 18 are now required to provide a completion certificate from the ODOT Oklahoma Work Zone Safe Course. This document is now required to obtain an intermediate license or a farm driving permit. This document can be scanned in when issuing a Learner Permit, and will not be required again.

The new scan document is located under the Issuance document category, labeled ODOT Teen Driver Course. You are required to provide a date of completion.

If a user does not scan the appropriate document when required, they will receive a deficiency that cannot be overridden. Scanning the ODOT form will remove this deficiency.

BUILD RELEASE NOTES

CR446a - VCT Grace Period Changes

The following VCT codes have been updated to a 45-day grace period from 40 days

- DRA
- DRB
- DRC
- DRD
- DRX
- DRZ

CR446b - CLP Duration Change

- CLP credentials issued after Nov. 1 will have a 1-year duration and cannot be renewed.
- CLP credentials issued before Nov. 1 can be renewed and will have the old duration of 6 months.

Non-Domicile Card Update

- Non-Domicile wording will now print on the temporary credential and physical card.

Collisions Error Queue, Alcohol Involved Must Be False

- Logic within the collisions error queue has been updated to not auto calculate the 'alcohol involved' field. If a user makes an edit to this field the system will not change the entry.

Collisions Error Queue - What Vehicle Did - Value Being Changed Back

- Logic within the collisions error queue has been updated to not modify the 'what vehicle did' field. User changes will be saved and not reverted.

CR437 Farm Driving Permit

New legislation (HB1962) will now allow customers who are between 14 and 17 years old who live or work on a farm to obtain a driver license with farm permit restrictions.

Changes in programming have been made to accommodate issuance of the new farm permit.

- External integrations including online MVR and OLETS will show the new J restriction.
- Changes to correspondence to show J restriction.
- Several new scan documents have been added.
- A selectable restriction J on the end/rest step.

BUILD RELEASE NOTES

CR437 Farm Driving Permit Issuance Process

- Farm Driving Permits will be issued using the DL original transaction.
- One of two scan documents must be scanned depending on the situation of the individual driver. Both scan documents are available under the Issuance document category.
 - Farm Permit- Employer Affidavit
 - Farm Permit- Parent Affidavit
- The ODOT Oklahoma Work Zone Safe Course completion certificate is also required to be scanned. This document is located in the issuance document category labeled ODOT Teen Driver Course. This is a separate new requirement independent of the farm permit.
- No driver education information is required for the Farm Driving Permit.
- The user will need to select the J restriction on the END/REST step.
 - If the restriction is not selected there will be a deficiency.
- Both the knowledge test and the skills test are required for a Farm Driving Permit.
- The J restriction can be removed when the customer is 16.5 or older
