## VIRTUAL FOCUS GROUPS

### PURPOSE

The Oklahoma Summit on Behavior and Climate is conducting a series of focus groups to engage with **educators, family and community members, and students** to discuss topics related to behavior and mental health in Oklahoma schools. We will explore current strengths and participant concerns regarding the needs of our schools in improving student mental health outcomes.

Focus group information will be shared with the Summit's Guiding Coalition (Oklahoma Stakeholder Group), and used to generate actionable recommendations for consideration by state agencies, universities, and legislators.
