

The Center for
AAC&Autism

Learn. Hope. Share. Succeed.

**LANGUAGE ACQUISITION
THROUGH MOTOR PLANNING
WORKSHOP!**

Bethany Children's Health Center

**February 29 & March 1, 2024
8:30AM-3:00PM**

LAMP is an augmentative alternative communication (AAC) approach designed to give individuals who are nonverbal or have limited verbal abilities a method of independently expressing themselves through the use of a speech-generating device. There are no cognitive prerequisites for implementing the LAMP approach. Intervention can begin at the cause and effect level and systematically build upon the stages of natural language development.

Day 1 covers implementation rationale and strategies with introduction to the LAMP Words for Life language system. Day 2 is a hands-on practicum with AAC devices and iPads. You may register for one or both days.
