

Gross Receipts to the Treasury

November 2022

Oklahoma State Treasurer Randy McDaniel

Despite Concerns Gross Receipts Remain Strong

Gross Receipts to the Treasury for the past year set a new record high for the sixth consecutive month, but falling energy prices raise concerns about future collections, State Treasurer Randy McDaniel announced today.

Twelve-month gross receipts through November are \$17.36 billion, up by \$2.44 billion, or 16.3 percent, from the prior 12 months. However, the monthly tax collections on oil and gas production fell below \$160 million for the first time since April.

“The overall results continue to be strong,” said Treasurer McDaniel.

“While lower fuel prices at the pump are providing needed relief for consumers, the slowdown in demand and drop in commodity prices will impact collections in the future.”

Compared to last November, the economic results for the month are positive. November collections of \$1.31 billion are up by \$120.9 million, or 10.1 percent, from November 2021.

All major revenue streams reflect growth. Sales and use tax collections

continue to exceed the rate of inflation, growing 10.5 percent compared to the same month of last year.

The monthly Oklahoma Business Conditions Index fell significantly

in November. This index, produced by Creighton University, decreased

from 51.3 in October to 39.8. It has not been below 50 since November

2020, indicating a forecast for economic contraction during the next three to six months.

“The slowdown in demand and drop in energy prices will impact collections in the future.”

About Gross Receipts to the Treasury

The monthly Gross Receipts to the Treasury report, developed by the state treasurer's office, provides a timely and broad view of the state's economy.

It is released in conjunction with the General Revenue Fund report from the Office of Management and Enterprise Services, which provides information to state agencies for budgetary planning purposes.

The General Revenue Fund, the state's main operating account, receives less than half of the state's gross receipts with the remainder apportioned to other state funds, remitted to cities and counties, and paid in rebates and refunds.
