About Gross Receipts to the Treasury

The monthly Gross Receipts to the Treasury report, developed by the State Treasurer’s Office, provides a timely and broad view of the state’s economy.

It is released in conjunction with the General Revenue Fund report from the Office of Management and Enterprise Services, which provides information to state agencies for budgetary planning purposes.

The General Revenue Fund, the state’s main operating account, receives less than half of the state’s gross receipts with the remainder apportioned to other state funds, remitted to cities and counties, and paid in rebates and refunds.
