RE: Notice of proposed permanent rulemaking – OAR chapter 333, division 333,
"Psilocybin Products, Training Curriculum and Testing Rules"

The Oregon Health Authority, Oregon Psilocybin Services (OPS) section is proposing to adopt administrative rules in chapter 333, division 333. The rules are needed to implement ORS chapter 475A, the Oregon Psilocybin Services Act. The products rules set forth standards for the types of psilocybin products that may be sold and how psilocybin products must be produced. The products rules protect the health and safety of workers who manufacture psilocybin products and clients who consume these products. The act requires Oregon Health Authority to approve training program curriculum for psilocybin facilitators. The training curriculum rules set forth requirements for approval. The act requires Oregon Health Authority to adopt rules establishing standards for testing psilocybin products. The testing rules specify requirements for testing psilocybin products. The rules protect consumer health and safety by ensuring that psilocybin products are properly tested for psilocybin content and do not contain contaminants.

You are being invited to review and comment on the proposed rules. If you wish to present oral comments on the proposed rules, two virtual public hearings are scheduled. Spanish interpretation, American Sign Language interpretation, and CART captioning services will be provided at the hearings.
