

NOTICE OF ROAD WORK

OR HWY. 206 & 74 CHIP SEAL

(Wasco-Heppner & Heppner Hwy's.)

Beginning July 11 the Oregon Department of Transportation (ODOT) will be chip sealing two highway sections in the Heppner area along the Heppner Highway (OR 74) and along the Wasco-Heppner Highway (OR 206) in Morrow County. Crews plan to begin on OR 74 at mile post 8.44 then work south towards Heppner. (**OR 74 chip seal completed July 21**). Around July 25, chip seal activities will move to OR 206 at mile post 54.8 (Gilliam Co. line) and work east towards Heppner. This section will take about two weeks to complete. In downtown Heppner a fog seal coating of oil will be applied over the chip rock to help seal the surface, limit loose rock in town and create a more uniform travel surface.

PARKING RESTRICTIONS: To accommodate pavement resurfacing work in Heppner (chip seal and fog seal coating) vehicles will not be allowed to park along Main Street (OR 206) in the downtown area for 1-2 days during these operations. No Parking restrictions are anticipated in early August. More info will be shared when no parking dates are identified.

TRAVEL IMPACTS: Expect up to 20-minute delays, reduced speeds, loose rock on the roadway, flaggers, and pilot cars directing single lane traffic through the work zones. Minor delays during nighttime/early morning hours for road sweeping. Please slow down and watch for construction activities in the area and plan extra travel time during this highway preservation project.

REQUEST TO RANCHERS: To prevent chip rock adhesion problems due to animal waste on the roadway, ODOT is asking ranchers to keep all cattle and other livestock out of the work zones between July 4 and mid-August. Animals can be driven on appropriate open range highway sections after the chip seal has been applied.

**SLOW DOWN.
BETTER ROADS AHEAD.**

The Way to Go. Transportation Safety — ODOT
