

Jeanne Arnold | Cannon Beach Medical Reserve Corps

The Cannon Beach MRC would like to honor **Jeanne Arnold**. Jeanne is a nurse with an extensive background in infant feeding. She has been working to research what options are available to acquire infant formula during an emergency. We have struggled with the short shelf life of formula and are seeking information about who might have developed a solution. We are currently pursuing a partnership with the Food Pantry. Since starting with the MRC, Jeannie has taken numerous courses and has been invaluable in helping our team to create a 2026 training plan. She has joined our Cannon Beach MRC Leadership Team and organized the training on Common Medical Emergencies with one of our MD teammates, Lisa Huddleston. The training was scheduled for March 7th in Cannon Beach.
