

## Lane County Medical Reserve Corps Honorees

Faces of some of the Lane County MRC members this past year.

As for Lane County, it's been a difficult half year since we lost the sponsorship of Lane County Public Health. What I appreciate most is that our entire core team of volunteer members has hung in there and we did not, even for a moment, give up the idea that we will somehow continue as an MRC, even though we remain in limbo to this day. In this interim, several members have stepped up to take on small or large tasks, such as setting up a WhatsApp group for communications, taking meeting notes, volunteering to present trainings to our group for future blue-sky activities, etc. Fortunately, we are now at least awaiting the day that an official transition will be made to our new sponsor, St. Vincent de Paul of Lane County. In our current situation, it is the **entire team** that deserves recognition.
