

Volunteers Needed in Union County | *written by Nicolas Aguilera**

The **American Red Cross** is seeking volunteers to help staff the **Right Track Resource Center (RTRC)** shelter and support individuals experiencing homelessness in Union County. Volunteers are especially needed during the **hot summer months when wildfire smoke affects our community**, throughout the **winter Warming Station season (November–March)**, and during other emergency shelter operations. Volunteers play a vital role in helping keep the shelter running by welcoming guests, assisting with basic shelter operations, and ensuring community members have a safe place to go during times of need.

For more information and if you are interested in volunteering please contact Nicolas Aguilera, Public Health Outreach & Emergency Preparedness Coordinator Center for Human Development (CHD) for Union County - naguilera@chdinc.org
