

Transfer Council: Common Course Numbering Updates

At the December Transfer Council meeting, Chairs and Co-chairs of Subcommittees presented Recommendation Reports and a Minority Report. These reports detailed the results of subcommittee deliberation, which resulted in alignment of 10 of the most transferred courses between community colleges and public universities in Oregon. In January, Transfer Council voted to recommend these courses to the HECC Commission for final approval.

Discussions of course learning outcomes during the December Transfer Council meeting led to creation of a charge for a CCN System Outcomes Assessment Subcommittee, which is charged with “locating, refining, and recommending a guide for writing clear, observable, and measurable course learning outcomes based on recognized best practices.” This new subcommittee will serve as a resource for Subcommittees and Transfer Council, and will be made up of four members from public community colleges and four members from public universities. Recruitment is underway. If you would like to submit a nomination for this subcommittee, use the Bio-sketch form in the [Nomination Process CCN Subcommittees](#) form and send all relevant information to TransferCouncil@hecc.oregon.gov, c/o Transfer Council Co-chairs Teresa Rivenes and Susan Jeffords.

In February, CCN Subcommittees will begin convening to align the following courses:

- BUS 101, 211, 213
- ENG 104, 105, 106 (Intro to... series)
- MTH 215, 252, 253, 254 (Calculus series)
- PSY 101, 201, 202
- WTG 115

Nominations for these five CCN subcommittees were confirmed at the January 19 Transfer Council meeting.

For more information on the nomination process for serving on a CCN Subcommittee or to submit a nomination, see the [Resources for Common Course Numbering webpage](#). A schedule of upcoming CCN Subcommittee meetings can be found on the [Current HECC Public Meeting Materials webpage](#).
