

# City of Eugene Emergency Management

## Training Announcement **ICS400: Advanced ICS for Command and General Staff, Complex Incidents and MACS for Operational First Responders**

---

**Course Description:** ICS 400: Advanced ICS for Command and General Staff

This course is intended to serve as a vehicle to share proven incident management strategies and practices, as well as to enhance teamwork and coordination among all response agencies' officers directly responsible for emergency response to a Weapon of Mass Destruction (WMD)/terrorism incident or other Incident of national significance. The course is specifically intended for those emergency response personnel who have duties that require they be directly involved in incident management or command at either a field Incident Command Post (ICP) or in a city, county, or regional Emergency Operations Center (EOC).

**Target Audience:** Individuals who may assume a supervisory role in expanding incidents. This course provides training on and resources for personnel who require advanced application of the Incident Command System (ICS).

**Date/Time:** All dates must be attended to receive certificate of completion.
